

Willard PK-8 School Title I Parent Plan

This plan ensures the parents of Title I students in the Willard PK-8 School have an opportunity to participate in the design and implementation of the building plan through activities such as Open House, Family Events throughout the school year, the Annual Title I Meeting, and Parent/Teacher Conferences.

The school will reach out to families through various modes of communication including: Open House, PTA, student events, WCS website, calling homes, monthly Newsletters, Parent/Teacher Conferences, the Parent/School compact, and meeting the parents as they drop off/pick up their children from school.

The Annual Title I parent meeting will be conducted each school year. At this time parents will be provided an overview of the programs supported by Title I in the building. To reach out to parents unable to attend the annual meeting, Title I information will be shared regularly in principals' monthly newsletters and at Family Events throughout the school year. Information will be posted on the district's website. A Title I Program Brochure will be available in the school office for parents to read about the services being provided.

The Willard PK-8 School will share information with parents regarding the performance of the students in the building, as well as their individual child, providing parent reports from the Ohio Department of Education and Workforce (ODEW) state assessments when released by ODEW. The building principals will answer questions related to the parent report and share information regarding the Title I programs in the building. The building principal will share the expectation levels of proficiency for students at the building during the Open House and in school communications sent home during the first two (2) months of school. The building will provide the parent the opportunity to request the qualifications of their child's teacher each fall.

All participants attending Family Events, Open House, Parent/Teacher Conferences, or the Annual Meeting will be given the opportunity to offer suggestions for improvement or share areas of concern to address. The building will respond to parent's concerns or recommendations within 30 days after receipt of the same in writing.

To the extent possible, each Family Event will include time assisting parents in understanding such topics as content standards, academic achievement standards, local assessments, alternate assessments, how to monitor student progress, and how to communicate with the child's teacher.

To enable students and families a seamless transition from the home, Preschool, Head Start, and other programs, the Willard PK-8 School, in conjunction with district personnel, will work to collaborate with the family and agencies to strengthen the home/school connection and assist with the transition from outside programs to the school.

The School Parent Involvement Plan has been developed jointly with parents of children participating in Title I programs, and adopted by the Willard PK-8 School Building Leadership Team on

September 8, 2025.
